Clinical Programs & Services

Cardiac Arrhythmia Service

(202) 444-5111

Provides diagnostic and therapeutic options including:

- Invasive electrophysiologic techniques for diagnosis and treatment of cardiac arrhythmias using radiofrequency ablation techniques;
- Pharmacologic therapy with standard and investigational agents;
- Implantation and follow-up of pacemakers and/or defibrillators; and
- Arrhythmia ablation and comprehensive non-invasive arrhythmia and syncope evaluation including continuous and event ambulatory monitoring, signal-averaged ECG, upright tilt-testing, and esophageal pacing and recording.

Availability:

- 24-hour emergency coverage is available for inpatient and emergency room evaluations.
- Cardiac device clinic is held on Mondays.
- Outpatient arrhythmia consults are on Thursday by appointment.
- Inpatient consults are available at any time.
- 24-hour ambulatory ECG monitoring, event monitoring and signal averaged ECG are scheduled through the diagnostic testing appointment line.

*Clinical Programs & Services, continued***Exercise Tolerance Testing Laboratories** (202) 444-1294

Provides diagnostic exercise testing for patients with coronary disease, congestive heart failure, and cardiac arrhythmias. Standard, thallium, and Sestamibi exercise tests, employing either treadmill or bicycle exercise, are available. Precise determination of exercise capacity can be obtained using state-of-the-art oxygen consumption techniques. In addition, non-invasive cardiac output determinations are available using the acetylene re-breathing technique.

Contact name: Theresa Ciulla, R.N.

Appointment line: (202) 444-1294

Fax: (202) 444-5484

Appointment hours: Monday – Friday, 8:00 a.m. – 4:30 p.m.

Heart Station (202) 444-1294

GASTROENTEROLOGY

Clinical Programs & Services, continued

Endoscopic Ultrasonography (202) 444-8541

This new technology combines ultrasonography and endoscopy, and allows the physician to see within and around the GI tract wall. It is employed to evaluate submucosal lesions, to stage neoplasms, and to guide endoscopic therapy.

Contact name: Nadim Haddad, M.D.; John E. Carroll, M.D.; Aline Charabaty, M.D.

Appointment line: (202) 444-8541

Appointment hours: Monday – Friday, 8:30 a.m. – 5:00 p.m.

Esophageal Studies Laboratory (202) 444-8895

This service offers comprehensive, state-of-the-art evaluation of esophageal diseases, including atypical chest pain, dysphagia and refractory reflux disease.

Comprehensive manometric, pH, and anorectal motility studies are performed.

Treatment recommendations are provided. The Motility Laboratory uses the Bravo pH System™, a catheter-free pH monitoring system. A capsule attached to the esophageal wall transmits data to a pager-sized receiver, eliminating uncomfortable 24-hour trans-nasal catheters.

Contact name: Kerri Johnson, R.N.; Stanley B. Benjamin, M.D.

Appointment line: (202) 444-8895

Appointment hours: Monday – Friday, 8:30 a.m. – 5:00 p.m.

Gastrointestinal Cancer

Evaluation/Treatment Service (202) 444-8541

Application of advanced technology for management of some gastrointestinal diseases such as bleeding or neoplasms. Multispecialty discussion with medical and surgical oncology with the most advanced evaluation and treatment modalities.

Includes endoscopic, ultrasound, Argon, laser, plasma coagulation and stents.

Contact name: Firas H. Al-Kawas, M.D.; Nadim G. Haddad, M.D.;

John Carroll, M.D.; Joan Smith, N.P.

Appointment line: (202) 444-8541

Appointment hours: Monday – Friday, 8:30 a.m. – 5:00 p.m.

Gastrointestinal Studies Laboratory (202) 444-8895

Comprehensive diagnostic and therapeutic services are offered for the treatment of peptic ulcer disease, gastroesophageal reflux disease, and other associated gastrointestinal disorders. In addition, the laboratory provides a number of ongoing studies to investigate these disorders. Gastric analysis, including sham feeding and secretin testing, is available.

Contact name: Kerri Johnson, R.N.; Stanley B. Benjamin, M.D.

Appointment line: (202) 444-8895

Appointment hours: Monday – Friday, 8:30 a.m. – 5:00 p.m.

*Clinical Programs & Services, continued***Inflammatory Bowel Disease (IBD)** (202) 444-3646

Comprehensive IBD consultation services providing diagnostic and consultative services and all forms of therapy, including the newest surgical and endoscopic techniques, and clinical trials of medications. Emphasis is on assisting the referring physician, patient and family in managing these important and often perplexing diseases.

Contact name: Aline Charabaty, M.D.; M. Scott Harris, M.D.

Appointment line: (202) 444-3646

Appointment hours: Monday – Friday, 8:30 a.m. – 5:00 p.m.

Liver Treatment Center (202) 444-1671

This diagnostic and therapeutic service offers comprehensive multidisciplinary evaluation for the treatment of liver disorders, including acute and chronic viral hepatitis, drug-induced liver injury, alcoholic liver disease, chronic cholestatic syndromes and other causes of jaundice. Patients may be referred for evaluation of abnormal liver-associated enzymes, liver biopsy, and/or laparoscopy, and can be evaluated for suitability for liver transplantation. In addition, the center offers interferon therapy for selected patients with chronic hepatitis B and hepatitis C, and will offer other therapies as they become available. Patients are eligible to enter clinical research protocols evaluating newer drug treatments for chronic viral hepatitis and other liver diseases.
